

## 2019 FALL MEETING

October 9-10 | Des Moines, IA

AEIC meetings provide an excellent opportunity to network and partner with others in the Ag. Seed and Biotech Industry, develop your expertise and expand your horizons so that you can better relate your work to the larger industry issues. It is a unique opportunity for professional development of your staff.

### Meeting Topics include:

- Seed testing, seed purity, seed movement
- Testing of gene edited products
- Farming and quality testing of pulses
- Bioassays for herbicide trait testing
- New technologies in Agriculture
- US-China trade conflicts
- GM hybrid salmon, trout, and tilapia
- .....

### Option to visit the Iowa State Seed Testing Labs

The meeting will be held at the Corteva Agriscience Campus. Go to <https://aeicbiotech.org/meetings/> for meeting information and to register.
